For vegetarian dinners a **deluxe veggie burger will be served in place of BBQ**. **Desert will include assorted cookies and brownies**. We may be again **servicing wines from California specials (90 pts +)**. Please also note that a vegetarian option is available if notified ahead (please see the registration form below).

Abstract:

The West without Water documents the tumultuous climate of the American West over twenty millennia, with tales of past droughts and deluges and predictions about the impacts of future climate change on water resources. Looking at the regions current water crisis from the perspective of its climate history, the authors ask the central question of what is “normal” climate for the West, and whether the relatively benign climate of the past century will continue into the future.
